

INTERNATIONAL DESIGN FESTIVAL

4-7th June 2009

Glowing Pears

EXHIBITION

Anna Dabrowski & Samuel Oswick

INVITATION

*To the opening of the International Design Festival;
'Glowing Pears' exhibition.*

FROM 1ST SEPTEMBER 2009, the traditional light bulb will begin to be phased out across the EU; to be replaced by energy-saving light bulbs. Energy efficiency aside, form & function has yet to be fully explored. It's now time for the energy-saving bulb to step out of the shadow of its predecessor, for its full design potential to be realised.

In conjunction with a typographic 3-D installation; energy-efficient light bulb designs will be showcased—whereby it's no longer necessary to hide behind the lampshade.

OPENING	Wednesday 3 rd June 2009 20–24 PM
FESTIVAL	4–7 th June 12–22 PM (Sunday 12–18 PM)
