

25th Beak Symposium

The following topics will be presented and discussed, among others:

- New features of the **advangeo**® Prediction Software,
- Compilation of **parameter grid maps** from point data using artificial intelligence,
- New findings regarding the **metallogeny** of the German Ore Mountains,
- Prediction of **geo-hazards**: landslide probability maps,
- **Nature protection** and motorsports – joint in post-mining use of a former gravel pit,
- News from **Esri**.

After the presentations, we invite you to celebrate the 25th anniversary of our company with a small snack and a glass of sparkling wine.

The event is free of charge, however, we kindly ask for registration for planning purposes.

The registration form, along with further information, will be sent as well as made available on our [website](#), soon.

If you would like to change / confirm your contact details, please click [here](#).
