

28th Beak Symposium - Presentation schedule and registration link

We invite you to our annual symposium on **29th April 2022**, which will be held as hybrid event - both on-site in Freiberg in person using a hygienic concept and parallel online as webinar using Microsoft TEAMS.

Topics to be presented will cover:

- 3D predictive mapping with advangeo®
- Mineral sector web portal for Nigeria
- Remote sensing in Cameroon
- Mineral plan of Burkina Faso
- Investigation of contamination along German railways
- Land use / land cover mapping in Saxony
- Lithium extraction from tailings in Erzgebirge
- EM and LiDAR drone surveying in Bockau exploration area

The detailed presentation schedule is now available here: [Schedule](#)

For registration, please use the following link: [Registration](#)

The event is free of charge and will start at **10 AM CEST**. We are looking forward to your participation!
