

Potentials of digital transformation in standardization - from paper to Digital Twin

Standardization is a necessary but time-consuming topic in which information has to be digitized manually on a large scale. Digitizing information is one thing, networking it and fully integrating it into the process as digital twins is another.

In the **free webcast** by **IHS Markit** and **CADENAS** on **17 February 2022** at **3 p.m. CET**, you will therefore learn how to bring your standardization into the digital age.

Get the answers to the following questions, among others:

- How do I make standardization more dynamic and attractive in my company?
- How do I digitize all relevant standardization data for my company?
- How can I network this information in the best possible way?
- Which tools can help me collect standards and metadata?
- Which tools and solutions will get my standardization on the path to digital transformation in the best possible way?

You can also discuss your questions with us in a live Q&A session. We are looking forward to the exchange!

Beginn:

Donnerstag, 17. Februar 2022, 15:00 Uhr

Ende:

Donnerstag, 17. Februar 2022, 16:00 Uhr
