

14th European Congress of Chemical Engineering and 7th European Congress of Applied Biotechnology

Chemical and Biochemical Engineering – Acting Together

Chemical engineering, biotechnology and bioprocessing are the key to providing innovative solutions for food supply, mobility, energy, health and well-being while striving for a sustainable economy. At **ECCE 14 & ECAB 7**, scientists from industry, universities and research institutions from Europe and beyond will meet in Berlin to discuss the latest research and industrial applications in all fields of chemistry, process engineering, biotechnology and related fields.

The conference unites chemical and process engineers, biotechnologists, bioprocess experts, chemists, material scientists and related disciplines with a focus on applied research and development.

ECCE 14 & ECAB 7 is organized by DECHEMA e.V. in cooperation with the **European Federation of Chemical Engineering (EFCE)** and the **European Society of Biochemical Engineering Sciences (ESBES)**.

- » The **highlight event** for the European chemical engineering and biotechnology community
- » Cross-linking disciplines and organisations to **span the bridge from R&D to the industrial practice**
- » **High-profile** international plenary and keynote speakers
- » Large industry exhibition, poster exhibition with up to 1000 posters and **plenty of networking opportunities**
- » More than **2,500 academic and industrial experts** in the field of chemistry, process engineering, biotechnology and related fields will attend
- » First meeting held in Florence, Italy in 1997 and since then, every two years at different locations such as: Montpellier, Nuremberg, Granada, Copenhagen, Prague, The Hague, Nice and Barcelona

The next ECCE/ECAB will take place from 17-21 September 2023 at the CityCube in Berlin/Germany. Save the date in your calendar and look forward with us to interesting presentations, interactive exchange with colleagues, the diverse range of exhibitors and sponsors as well as a supporting programme that offers plenty of time for networking.
