

# Managing sickness absence medical certificate in SAP-HCM

**How can you enter and manage sickness absence medical certificates in SAP? Can you scan a medical certificate directly into SAP and attach it to a personnel number?**

## **What to expect:**

In the **interactive webinar**, our experts together with the inPuncto's development and implementation Partner ZALARIS Germany will show you how to **record, manage and archive sickness absence medical certificates in SAP-HCM**. The webinar concludes with a Q&A.

## **Watch this Webinar to find out:**

- which input channels are available for sickness absence medical certificate (e.g. via inPuncto scanner software for SAP biz2Scanner, via multifunction device or via email),
- how the data from the medical certificate is automatically processed or read out via OCR,
- how an ad hoc workflow is initiated in SAP as well as about the validation of the OCR data,
- how the posting in SAP automatically takes place.
