Cleaning up Confluence – automated Content Lifecycle Management made simple

Better together: A webinar by Jodocus (Atlassian Platinum Solution Partner) and B1NARY (Atlassian Marketplace Partner)

With Confluence Cloud, employees can digitally map, manage, and expand all the knowledge in their company. They can create and edit content at anytime from anywhere.

This is great – until you lose track of all the content.

In our free live webinar, Jan Szczepanski (CMO and Co-Founder of Jodocus) and Adrian Hülsmann (Co-Founder of B1NARY) explain how to keep Confluence Cloud free of clutter with content reviews and page archiving workflows.

Besides pointing out the benefits of Confluence Cloud they will present the Atlassian Marketplace app *Breeze* which helps to control the content quality of all spaces and to track outdated pages in Confluence Cloud.

Beginn:
Donnerstag, 19. Januar 2023, 16:00 Uhr
Ende:
Donnerstag, 19. Januar 2023, 16:45 Uhr
