

Webinar: STEP Technology® for Particle Sizing

Webinar with Live Q&A:
Wednesday, June 17, 9 am (UTC + 2)

STEP Technology® for Particle Sizing

Dr. Arnold Uhl – LUM GmbH

Register now for free!

Are you working in the R&D department of a cosmetics, home & personal care, paints, coatings or pigment producing company?

Is time your most important value as your challenge is to develop new product formulations as quickly as possible while stability studies take you up to several months?

STEP Technology® could make your life much easier and please your management board at the same time: Learn how Space- and Time-resolved Extinction Profiles, obtained over the entire sample length of up to 12 different samples simultaneously, help you to develop new products efficiently and in a fraction of the usual development time.

In the following Q&A session you can pose your questions.

Questions can be asked in English or alternatively in German. Register now.

STEP Technology® for Particle Sizing

Free Webinar on Thursday, **June 17**, 2021 9:00 am
Europe Summer Time (Berlin, GMT+02:00)
