

## Future of Intralogistics - Days 2022

**Future of Intralogistics**  
9th and 10th March / 1 p.m.

**NIMMSTA**

**NIMMSTA INDUSTRIAL  
SMART WATCH IN INTRALOGISTIC**

**Andreas Funkenhauser**  
CEO

**#FoiD2022 #futureofintralogistics**  
**future-of-intralogistics.com**

Our CEO Andreas Funkenhauser presents how the NIMMSTA Freehand Workflows are revolutionizing intralogistics and generate an increase in efficiency of up to 40%.

- NIMMSTA presents itself and its innovative HS 50 back-of-hand scanner.
- Live demonstration of how the HS 50 can be quickly and easily integrated into an existing merchandise management system.
- We will show how the touch display of the HS 50 can be configured easily and can be configured individually.

*We developed the first Smart Watch for the intralogistics.*

It is necessary to register for each day individually: <https://future-of-intralogistics.com/#register>

The Future of Intralogistics is coming to Europe, designed exclusively for experienced people in B2B intralogistics. We don't spend time on the basics! All sessions are free fast-paced with 20 minutes length, Q&A-packed, always informative. This is your place to learn everything new and future trends in intralogistics, such as warehouses, e-commerce and production to give your team inspiration and fresh ideas for the new year. The event is held in English.
