

Theory Meets Practice event: The ABC of investing – how to get rich without working

Our next TMP event is scheduled for the 21st July 2021 – join us!

When macroeconomics and finance get together a global view unveils a variety of investment ideas across many markets and asset classes. But how can you exploit those investment ideas and convert them into money? How can you generate profits if markets are falling? And what is a relative investment? Whoever seeks an answer to these questions and wants to learn how to generate investment ideas should join our session.

For our next Theory Meets Practice event on **July 21st, 2021** Prof. Dr. Felix Streitferdt (Theory, Nuremberg Tech) meets Eduardo Quiñones Oliva (Practice, The Macro Monkey) to discuss the ABC of investing. The event starts at **7 pm** and is taking place **online**.

Please register via email at ops-mba@th-nuernberg.de until July 20th, 2021.
