

HK 2019 Heat Treatment Congress

HeatTreatmentCongress 2019 - forum for exchange and innovation

The HeatTreatmentCongress is the largest meeting for the heat treatment industry in Europe. As a symposium with high-class programme and a renowned trade fair, the HeatTreatmentCongress combines knowledge and practice in a unique way. About 500 professionals attend the Congress each year. This year again more than 200 companies from Germany and abroad present themselves at the exhibition. Please use this forum for an ideal presentation of your company and for professional exchange.
