

# Data Dreamland

Welcome to the Data Dreamland

Have you often wondered:

How do I bring my company forward with the help of a data warehouse? How do I use the data warehouse in the most business-oriented and efficient way? How do I get the best out of my data as easily as possible and in real time? What strategies are there and how promising are they? What do success stories look like?

These and many more questions will be discussed in this 2-days event filled with **workshops, presentations, discussions** and **networking opportunities**.

DATE:

November 9th & 10th, 2021
